The Future of Broadband Wireless - Long Term Evolution (LTE)

Speaker: Jonathan Borrill - Anritsu EMEA
Wed 12th Nov 2008 at 19:30
School of Management,
University of Surrey,
Guildford

Refreshments and networking from 19:00

Anritsu's Jonathan Borrill guides us through the Next Generation Network evolution of broadband that foresees the convergence of fixed line and mobile communications in to one seamless network.

He will also give us a sneak-preview of the future broadband wireless system technologies.
