

HYDROCARBON DEW POINT PROJECT – IDENTIFYING CODES

Introduction

The project report and *Energy & Fuels* paper use different identifying codes to describe the real natural gas samples and analytical systems. Full details of the differences are given in the table below:

Synthetic natural gas samples

Project report	<i>Energy & Fuels</i> paper
High	H1
Mid 1	M1
Mid 2	M2
Low 1	L1
Low 2	L2

Real natural gas samples

Project report	<i>Energy & Fuels</i> paper
Gas A	Gas A
Gas B	Gas B
Gas C	Gas C
Gas D	Gas D
Gas E	Gas X
Gas F	Gas E
Gas G	Gas Y

Analytical systems

Project report	<i>Energy & Fuels</i> paper
ACMI	ACMI
MCM1	MCM1
Lab GC1	GC2
Lab GC2	-
Process GC3	GC3
Process GC4	-
-	GC1
