

Airborne Radioactivity Monitoring Users' Group Questionnaire (2006)

Please return to **Julian Dean** by e-mail (julian.dean@npl.co.uk), fax (020 8943 8700) or post (F6-A1, NPL, Hampton Rd, Teddington, Middlesex TW11 0LW).

1. Your details

Name	
Address	
Telephone Number	
Fax number	
E-mail address	

2. Register of facilities and services

The following information is intended to be published on the ARMUG web page. If you would prefer the information to be circulated only to members of the ARMUG, please tick this box.

Name of organisation	
Nature of business	
Services provided and contact details	
Description of air monitoring equipment, type(s) of air monitor(s) used, etc.	

--	--

3. Recommended textbooks / training courses

Please provide details of any textbooks or training courses which you would recommend to people involved in air monitoring work. Any books or courses suggested will be shown on the web page.

--

4. NPL measurement services and standards

If you have any requirements for services and/or standards relating to air monitoring which are not already provided by NPL, please give details below (e.g. radionuclides, format, required nominal activity, etc.) Please estimate how often you expect to need such services or standards.

--

5. Good Practice Guides

NPL has just published Good Practice Guide 82 ('The Examination and Testing of Equipment for Monitoring Airborne Radioactive Particulate in the Workplace'), which is available as a free download from the ARMUG webpage. Would you find additional guides of this type useful, and, if so, what areas would you like to see covered?

6. Any other suggestions

Please provide any suggestions you have for the ARMUG such as items to be included on the website, discussion items for future meetings, etc.
