## Decay Data Evaluation Project

- International collaboration to produce the best evaluated nuclear decay data available
- Published in several forms, including [www.nucleide.org/DDEP\\_WG/DDEPdata.htm](http://www.nucleide.org/DDEP_WG/DDEPdata.htm)
- BIPM, OECD-NEA, IAEA NDS all appear to have adopted the work of DDEP to some extent

## The JEFF 3.1 Nuclear Data Library

- Released May 2005 – JEFF Report 21
- Radioactive decay data has been updated using DDEP, UKAEA databases, ENSDF and NUBASE
- Accessible through the NEA: [www.nea.fr/janis/](http://www.nea.fr/janis/)

## Nuclear Data Enquiry Service

- DTI funded to provide free advice on demand in relation to nuclear data
