

Welcome
to the
International Workshop
on Monte Carlo Codes

26 - 27 March
2007

Housekeeping Issues

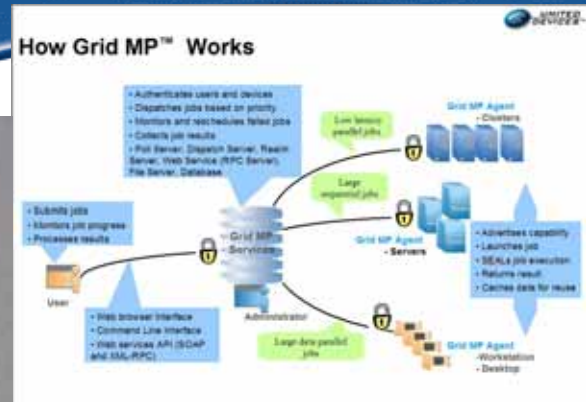

- The Fire Alarm is a voice alarm system
- In the event of a fire, follow NPL staff and assemble on the lawn opposite Reception
- No smoking building
- Please turn off mobile phones during the sessions
- Location of toilets

- NPL is the UK's main National Metrology Institute
- Mainly based here in Teddington
- NPL is owned by UK Department of Trade & Industry but run by NPL Management Ltd, wholly owned by Serco Group plc
- Core metrology work is funded by DTI through the National Measurement System (NMS), currently comprising about 20 programmes each 3 years long
- The rest of NPL's funding comes from R&D contracts from the public & private sectors, measurement services, and a variety of consultancy and measurement solutions contracts

Ionising Radiation at NPL

- Currently - 2004-2007 NMS Ionising Radiation programme
- 3 Technical themes: Dosimetry, Radioactivity, Neutrons
- 2007-2010 programme will be NMS Acoustics & Ionising Radiation programme, starting in October – adds Acoustics as 4th technical theme
- NPL is restructuring to align with the new NMS structure, so there will now be a single NPL team for Acoustics & Ionising Radiation, led by Steven Judge

Ionising Radiation Facilities

Local arrangements
